1.7.1

DIRECTOR OF CENTRAL INTELLIGENCE

Security Committee

SECOM-D-064

20 March 1984

MEMORANDUM FOR:

[Redacted]

STAT

Chairman, SECOM Compartmentation Subcommittee

FROM:

[Redacted]

STAT

Chairman

SUBJECT:

Contractor Security Practices for SCI

REFERENCE:

Your memorandum to me dated 13 March 1984,
subject: 41st Meeting of Compartmentation Subcommittee

1. The referent memorandum advised that Compartmentation Subcommittee members had agreed that contractor advertisements for persons holding specific SCI access approvals constitute a poor security practice and should be stopped. The memorandum stated the need for DCI policy direction on this matter, for subsequent implementation by Intelligence Community agencies. You advised at the 7 March 1984 SECOM meeting that such advertisements offered the potential for hostile targeting.

2. DCI security policy for SCI is prescribed in the DCI "Security Policy Manual for SCI Control Systems," dated 28 June 1982. Consideration is being given to reformatting this manual as a DCI directive. Pages 12 and 13 of that manual concern the release of SCI to contractors/consultants. Please draft specific language providing guidance regarding reference to SCI access approvals in contractor advertising, for use as a new section of the Security Policy Manual for SCI Control Systems.

3. Please provide the requested draft by 4 April 1984.
